

SEXUAL VIOLENCE RESEARCH INITIATIVE

29 AUGUST 2018

2019 SVRI AND WORLD BANK GROUP CALL FOR PROPOSALS CLOSES ON 5 SEPTEMBER 2018!

[SVRI and World Bank Group Development Marketplace for Innovation on GBV Prevention and Response 2019](#): The Sexual Violence Research Initiative in partnership with the World Bank Group will disburse more than US\$1 million to advance evidence-based interventions to prevent and respond to gender-based violence (GBV) in low- and middle-income countries. This year, the Call for Proposals includes the private sector; companies that have engaged in preventing and responding to GBV are encouraged to apply. All applications must be submitted and received via the [SVRI and World Bank Group Grant Awards online system](#) by midnight (South African Standard Time, or 4:59:59 EST) **September 5, 2018**.

JOURNAL ARTICLES

[Mental health services as a vital component of psychosocial recovery for victims of child trafficking for commercial sexual exploitation. Rafferty Y. American Journal of Orthopsychiatry, 88\(3\), 249–260, 2018](#): This study focuses on the mental health needs of children who are identified as victims of trafficking for child sexual exploitation and placed into residential aftercare programs for recovery and (re)integration in South and Southeast Asia. (Source: Pace University).

[Setting global research priorities for child protection in humanitarian action: Results from an adapted CHNRI exercise. Bermudez L.G, Williamson K, Stark L. PLoS One. ePub, 2018](#): This study presents the process and results of a research priority setting exercise, adapted from the Child Health and Nutrition Research Initiative (CHNRI), designed to guide future research investment for child protection in humanitarian contexts. (Source: SafetyLit).

[Lessons learned from implementing Indashyikirwa in Rwanda- an adaptation of the SASA! approach to prevent and respond to intimate partner violence. Stern E, Martins S, Stefanik L, Uwimpuhwe S, Yaker R. Eval. Program Plann. 71, 58-67, 2018](#): This paper reviews adaptation processes of the Indashyikirwa program in Rwanda, a four-year program to prevent intimate partner violence, implemented by CARE Rwanda, Rwanda Men's Resource Center (RWAMREC) and Rwanda Women's Network (RWN). (Source: SafetyLit).

[Witnessing intimate partner violence as a child: how boys and girls model their parents' behaviours in adolescence. Forke C.M, Myers R.K, Fein J.A, Catalozzi M, Localio A.R, Wiebe D.J, Grisso J.A. Child Abuse Negl. 84, 241-252, 2018](#): In this article, authors explore how childhood witnessing of same-gender, opposite-gender, and bidirectional violence perpetrated by adults is associated with adolescent relationship violence victimization only, perpetration only, and combined victimization/perpetration for male and female undergraduates. (Source: SafetyLit).

[Community based interventions for strengthening adolescent sexual reproductive health and rights: how can they be integrated and sustained? A realist evaluation protocol from Zambia. Zulu J.M, Goicolea I, Kinsman J, Sandøy I.F, Blystad A, Mulubwa C, Makasa M.C, Michelo C, Musonda P, Hurtig A. Reproductive Health. ePub, 2018](#): This study protocol aims to explore how community-based interventions for strengthening adolescent sexual reproductive health and rights can be accepted and adopted in community health systems by documenting the conditions that shape acceptability and adoption process of such interventions. (Source: BioMed Central).

ONLINE RESOURCES

[Violence against children: a review of evidence relevant to Africa on prevalence, impacts and prevention. Win Big Philanthropy. 2018](#): Big Win Philanthropy has undertaken an evidence review of the benefits for human and economic development of preventing violence against children. Physical and sexual violence at home, at school and in the community affects around two thirds of all children in Africa and is an economic issue as well as a moral one. The review of evidence is available for download in three forms – as the [full report](#), as a [graphical summary](#) and as a [one-pager](#). (Source: ISS Africa).

[Introduction: values clarification for humanitarian audiences. Ipas. 2018](#): This toolkit is a resource for humanitarian staff who implement or support reproductive health and related projects at the global level and in the field. It includes background information, materials and instructions for effectively facilitating values clarification and attitude transformation workshops to support the integration of safe abortion care into humanitarian settings. (Source: Ipas).

Sexual violence is a global issue that requires coordinated evidence-based responses

The Sexual Violence Research Initiative is hosted by the Medical Research Council, South Africa. The SVRI aims to increase awareness and promote research on sexual violence and its linkages to other forms of violence to influence policy and practice, particularly in low and middle-income countries. To learn more about the SVRI visit our website www.svri.org or contact us at svri@mrc.ac.za
