Lessons learned

The Gender and Disability project specifically acknowledges the vulnerability of women and girls with disabilities to gender and disability-based violence and the lack of documented good practices on inclusive responses to address it. On this ground, the NW Gender and Disability project seeks to increase the visibility of women and girls with disabilities within international development, human rights, gender and humanitarian action to ensure that their voices and concerns are heard on how to respond to violence, abuse and exploitation throughout the world.

#LeaveNoWomanBehind

We believe that all women should live in a world free from violence.
We believe that feminism has to open its doors to diversity.
We believe that the leadership of all women with intersecting identities and their inclusion in the global feminist movement are critical to instill sustainable change.
We believe it's time for all women to unite for inclusive feminism.
