

Dear SVRI Members

SVRI World Bank Group Development Marketplace 16 Days Blog Series

Read our final #16Days Blog entitled "[Engaging men and boys in the prevention of violence against women in Uganda](#)" a collaborative study between researchers from the University of California San Diego's Division of Global Public Health, Centre on Gender Equity and Health and the Rakai Health Sciences Program (RHSP), Uganda. This study will hopefully offer insight into best practices for involving men and boys in IPV interventions, and be adapted for global use across multiple contexts. We look forward to hearing your thoughts on this project.

Read all #16Days Blogs on innovative projects supported through the Development Marketplace for Innovations to Prevent Gender-Based Violence online at SVRI Blog and World Bank Blog, Voices. Follow SVRI and WBG Development Marketplace Awards on Twitter @theSVRI @WBG_Gender #GBVSolutions #16Days.

Sexual violence is a global issue that requires coordinated evidence-based responses.

The Sexual Violence Research Initiative is hosted by the Medical Research Council, South Africa. The SVRI aims to increase awareness and promote research on sexual violence and its linkages to other forms of violence to influence policy and practice, particularly in low and middle income countries.
