

VAC & VAW RESEARCH PRIORITIES: Technical Briefing Session Ranking and scoring of research questions

Global Stakeholders
30 May 2022

Welcome

*Please note that the meeting will be recorded

- We appreciate you taking the time to join this meeting.
- The purpose of this meeting is to provide an update on the VAC-VAW research priorities intersections process and brief you on the next step of completing the survey to rank and score the research questions.
- Please feel free to ask any questions you may have at the end of this presentation.

Agenda

1

Overview and
recap of
process

2

Results
discussion

3

Criteria and
data cleaning
process

4

Scoring process

5

Your role as
stakeholders

6

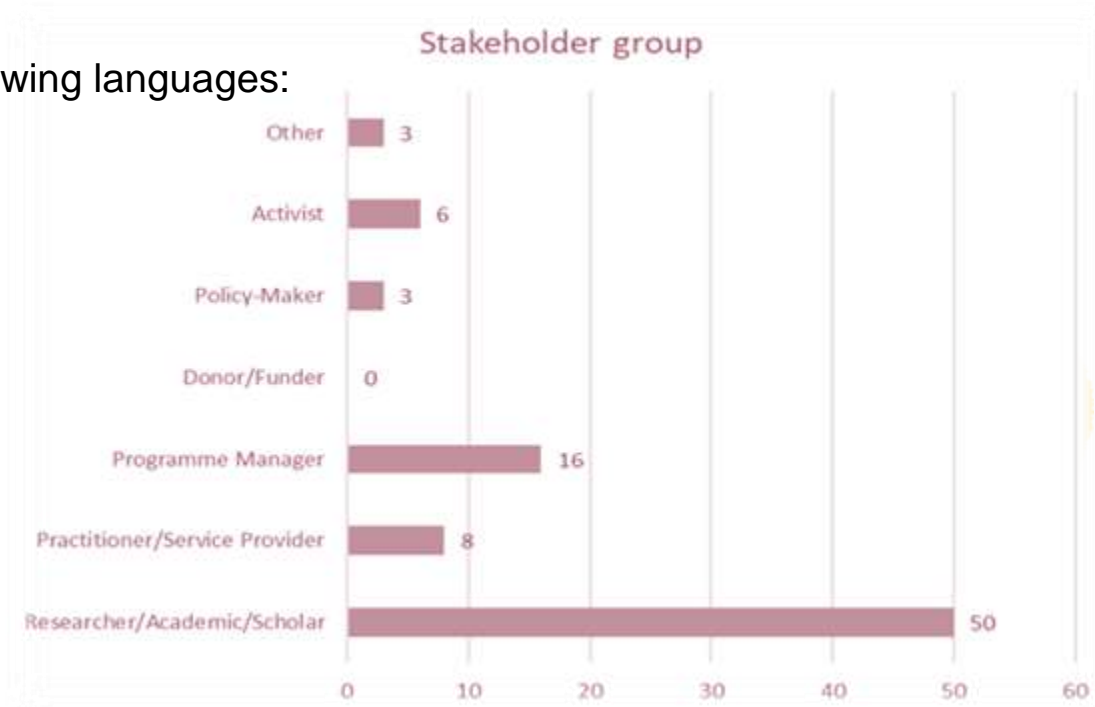

Q and A section

Recap of the steps

<u>STEPS</u>	<u>WHEN</u>
Step 1: Evidence synthesis / scoping review	Completed
Step 2: Develop domains, criteria & questions	Completed
Step 3: Scoring research questions	June 2022 (Launch 30 May 2022)
Step 4: Analysis, ranking, and report writing	July-August 2022
Step 5: Validation workshop	August 2022
Step 6: Publication and dissemination	Ongoing Launch SVRI Forum Sept, 2022

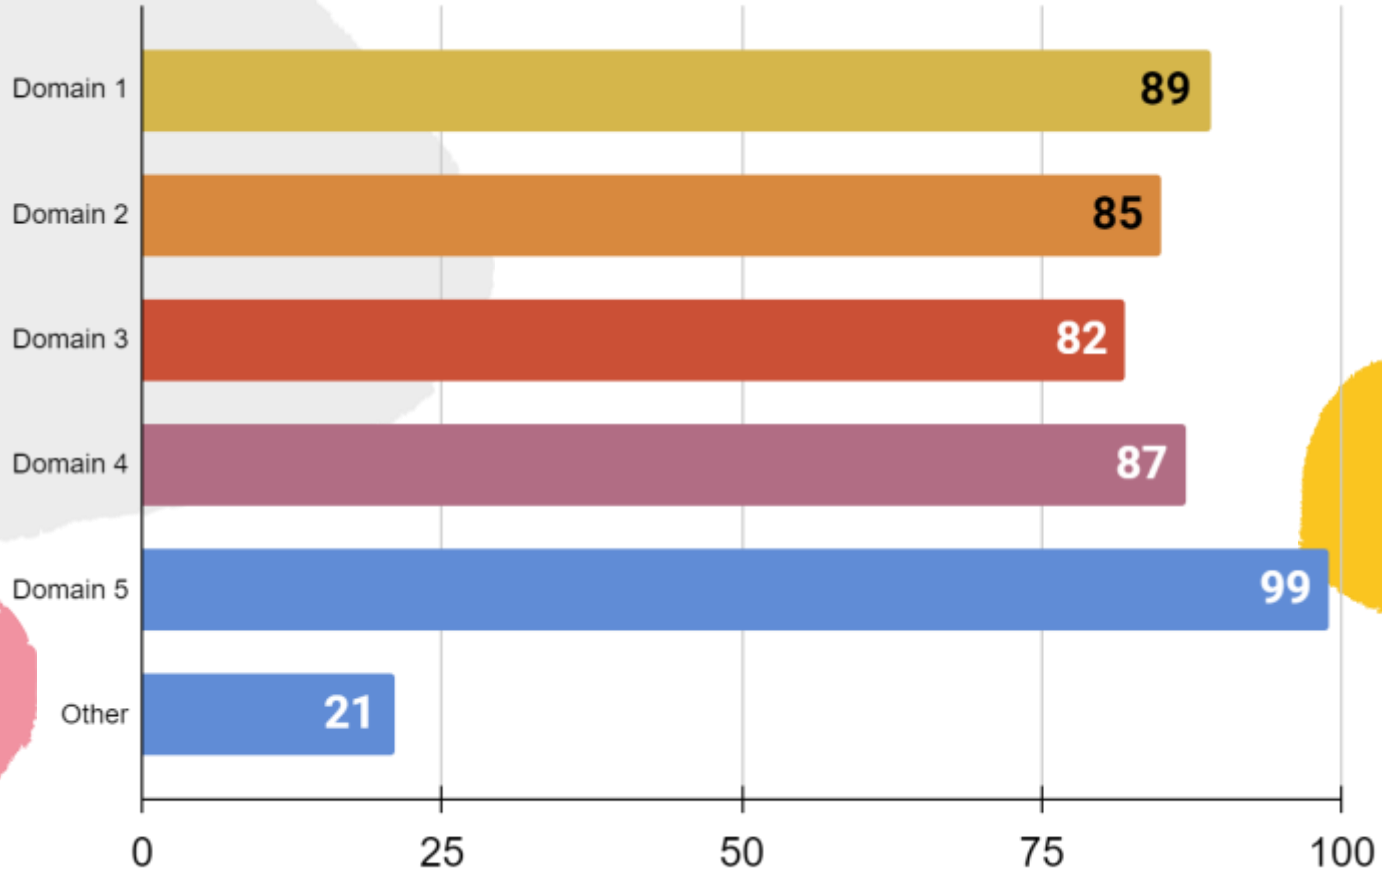

Submission of Research Questions through open survey

- The surveys were available from 10/03/2022 and closed 05/04/2022.
- These surveys were available in the following languages:
 - English (76 responses)
 - Spanish (5 responses)
 - Arabic (1 response)
 - Portuguese (0 responses)
 - French (5 responses)
- Total of 87 people responded

Research Questions per Domain

Total Combined research questions = 463

Criteria

<u>Criteria</u>	<u>Definition</u>	<u>Question</u>
Applicability and impact	Likelihood that the knowledge generated from the proposed research would be implemented and have an impact on policy and practice.	Will the knowledge from this research question influence understanding, practice or policy on VAC-VAW intersections?
Advancing the evidence base	Likelihood that the proposed research will advance the evidence on VAC-VAW intersections.	Will the knowledge from this research question change our current understanding or approaches to researching VAC-VAW intersections?
Answerability and feasibility	Clarity of research question and likelihood that a study can be designed to answer the question within 10 years.	Can an ethical research study be designed and implemented to document data to answer this question (within 10 years)?

Scoring Process

- Keep in mind the context when completing the scoring process.
- The context will be defined by space (global) and time (5 – 10 years).
- For each research question you will answer each criteria with either YES; NO; or MAYBE
- Select MAYBE if you have the knowledge but the answer to the question isn't clear.
- Please leave the cells BLANK if you do not know how to answer them.

1. You will all receive a link to the survey via email when it is ready.
2. This survey will be in a similar format as the previous survey and available via SurveyMonkey.
3. You will score each research question on each criteria.
4. The survey will be available in English, Spanish, Arabic, and French.

Your role as stakeholders of this crucial stage

- We need you to complete the survey as soon as possible.
- We need each of you to reach out to your colleagues in the field to participate as well.
 - More info available on webpage and from technical briefing session (you will receive links via email).

Thank you!

Time for Q and A
