SVRI and Grant Making

The SVRI

What We Want To Achieve

01

BUILD EVIDENCE

An increase in innovations tested by strong research designs for improved responses to and prevention of violence against women and violence against children.

02

STRENGTHEN CAPACITY

An increase in the number of researchers from low- and middle-income countries leading rigorous, impactful and innovative research on violence against women and violence against children in low- and middle-income countries.

03

PROMOTE PARTNERSHIPS

A co-operative and nurturing field where knowledge is shared and people collaborate and support each other.

04

INFLUENCE CHANGE

More resources mobilised and used effectively for research on violence against women and violence against children and evidence-based practice in low- and middle-income countries.

Voices of Grantees

Grantee on partnerships: *“SVRI has been helpful in providing access to networks & linkages, by regularly forwarding call for proposals of other organisations - it's a very good thing that there's generosity on the part of SVRI in trading information like that.”*

Former grantee on ongoing support post grant: *“Even though they haven't been funding us for a couple of years now, I have got lots of [opportunities] coming through the SVRI [...] so SVRI has been our ambassador and we appreciate that, there are few funders [...] like that.”*

Grantee on adapting to COVID-19: *“The SVRI - was really amazing, the support and the sort of flexibility that SVRI showed supporting us in that process.” -*

Grantee on research translation: *“The SVRI helped us to [...] incorporate how we will use the lessons learnt from this study and [...] to include our beneficiaries in this aspect, [...] engaging with them post study to make sure the lessons learnt don't go to waste.”*

What we like to see in proposals
